Below is the **required Release 1.0 codebase starter pack** focused on the first blockers identified in the Production Readiness Review: no logout, no password reset, crashing Analytics route, missing navigation reachability gate, no global error boundary, and hardcoded environment config. The audit found **9 Critical** and **13 High** issues, with GA explicitly not recommended until these are closed.

YohPal Live — Production Readiness Review.pdf

```
// lib/core/config/yohpal_env.dart
class YohPalEnv {
  static const functionsBaseUrl = String.fromEnvironment(
    'YOHPAL_FUNCTIONS_BASE_URL',
    defaultValue: 'https://us-central1-yohlab.cloudfunctions.net',
  );

  static const livekitUrl = String.fromEnvironment(
    'YOHPAL_LIVEKIT_URL',
    defaultValue: 'wss://yohpal-live-ln8xib3c.livekit.cloud',
  );

  static const walletWebUrl = String.fromEnvironment(
    'YOHPAL_WALLET_WEB_URL',
    defaultValue: 'https://wallet.yohpal.com',
  );

  static const adsWebUrl = String.fromEnvironment(
    'YOHPAL_ADS_WEB_URL',
    defaultValue: 'https://ads.yohpal.com',
  );

  static const subscriptionsWebUrl = String.fromEnvironment(
    'YOHPAL_SUBSCRIPTIONS_WEB_URL',
    defaultValue: 'https://subscriptions.yohpal.com',
  );
}

// lib/features/auth/auth_error_mapper.dart
class AuthErrorMapper {
  static String friendly(Object error) {
    final value = error.toString();

    if (value.contains('invalid-credential') ||
        value.contains('wrong-password')) {
      return 'The email or password is incorrect.';
    }

    if (value.contains('user-not-found')) {
      return 'No account was found with this email.';
    }

    if (value.contains('email-already-in-use')) {
      return 'This email is already registered.';
    }

    if (value.contains('weak-password')) {
      return 'Please use a stronger password.';
    }

    return 'Something went wrong. Please try again.';
  }
}

// lib/features/auth/password_reset_service.dart
import 'package:firebase_auth/firebase_auth.dart';

      return true;
    };

    runApp(const YohPalApp());
  }, (error, stack) {
    // TODO: FirebaseCrashlytics.instance.recordError(error, stack, fatal: true);
  });
}

# pubspec.yaml patch
dependencies:
  firebase_crashlytics: ^4.1.0
  firebase_analytics: ^11.3.0

# Release 1.0 validation commands
flutter clean
flutter pub get
flutter analyze
flutter test
flutter run \
  --dart-define=YOHPAL_FUNCTIONS_BASE_URL=https://us-central1-yohlab.cloudfunctions.net \
  --dart-define=YOHPAL_LIVEKIT_URL=wss://yohpal-live-ln8xib3c.livekit.cloud

```

Next Smart Move

Build **YOHPAL LIVE RELEASE 1.0A — Critical Account, Navigation & Observability Patch**, requiring developers to submit commit hash, Crashlytics proof, logout screenshot, password-reset proof, Analytics route fix proof, navigation reachability test output, `flutter analyze`, and `flutter test`.
